

Our Preschool News

APRIL

From the Teacher

The children are still working hard daily on their letter and number recognition. Any extra time practicing at home is a plus. Sing songs, play games and of course read, read, read! The children have been working really well together on taking turns, sharing, and helping each other out when they need help with something. You should be very proud! Have a great month!
Ms. Lisa

Look What We Are Learning!

From here to there, but how do we get there? There are so many ways to travel. We will be exploring transportation through plenty of hands-on learning activities. The rest of the month will be focused on creepy crawly things. We will learn about how caterpillars turn into butterflies and we will have our very own caterpillars to take care of in class and then set them free when they turn into butterflies. The children will explore different types of insects. And may we will get lucky enough to find some cool bugs while exploring outside. Lastly, it's all about our eight-legged friend the spider!

Reminders

Summer Camp is quickly approaching. If you plan on having your child attend any of the weeks, please let me know ASAP so I can reserve your spot.

Important Dates

Easter: Sunday April 4th
